OPERATIONAL

1.5.8 Failing the ability to undertake Run Offs Timed runs will become both qualification and Run Off.

1.5.9 In events where there are three Timed Runs, Timed Run 1 will become the qualification for Run Off 1, which will take place in parallel with Timed Run 2. Non qualifying contenders will simply take a customary Timed Run 2. Timed Run 3 will become both qualification and Run Off.

1.5.10 In events where there are four or more Timed Runs, Timed Run 1 will become the qualification for Run Off 1, which will take place in parallel with Timed Run 2. Non qualifying contenders will simply take a customary Timed Run 2. Timed Run 3 will become the qualification for Run Off 2, which will be run in parallel with Timed Run 4. Non qualifying contenders simply take a customary Timed Run 4.

1.5.11 Where competitors sharing a car both qualify the order shall be adjusted to enable at least a 4 car interval between them. More than one car at a time may be permitted on course during the Run Off. Should it become apparent to the organisers that any of the fastest 12 registered contenders is unable to compete in the Run Off, when this is determined, the organisers will offer to the 13th best qualifier the opportunity to take part. Such opportunity continuing in order of qualification until such time as the Run Off contains 12 active competitors (unless this is not possible).

1.5.12 A round will customarily qualify as a counting round upon the completion of the first timed run for all registered contenders. Should an event be abandoned before or during the first Championship runs points will be awarded based upon the order in which the 12 contenders in **1.5.8 – 1.5.10** qualified, when all registered contenders have been given the opportunity of at least one timed run. Should an event be abandoned before or during the second Championship runs points for that round will be awarded based upon the order in which the 12 contenders in **1.5.8-1.5.10** qualified when all registered contenders have been given the opportunity of at least a second timed run.

1.5.13 During a Top 12 Run Off the driver must exit the car before any refuelling takes place AND an appropriate fire extinguisher must be present during the process.

1.5.14 Due to safety and environmental concerns, vehicles must not be left unattended under any circumstances when the engine is running.

1.6 Scoring:

1.6.1 In order to qualify for points a competitor must be classified as finisher.

1.6.2 There shall be in each event two Top 12 Run Offs. Each Run Off shall consist of one run and will count as one round. On each occasion points will be awarded, in order of qualification, from 25 to the fastest qualifier down to 1 for the 25th qualifier. Then before each Run Off the 12 fastest contestants' points will be adjusted to 13. Then upon the conclusion of the Run Off points will be added on the basis of 12 to the fastest performer down to 1 to the 12th fastest to the 13 already acquired above. Should the Run Off fail to take place then the Top 12 competitors' points will be reinstated.

1.6.3 Competitors points scoring will be recorded by the Championship Co-ordinator and bulletins, showing current positions, will be sent to all organisers and competitors periodically.

1.6.4 Points scored in any **twenty nine** of the **thirty eight** qualifying rounds will count towards a competitor's final Championship total. Should circumstances dictate a change to the number of qualifying rounds the following scoring system will be used:

36-37 rounds Best **27** scores count

32-35 rounds Best 24 scores to count

28-31 rounds Best 21 scores to count

24-27 rounds Best 18 scores to count. Should a lesser number of rounds take place then two less than that lesser number shall count.

1.6.5 In the event of a tie between two or more competitors, for the purposes of all awards, the following tie-break procedure will be adopted in the sequence shown until a result is obtained:

(a) The number of best places from the counting rounds will be counted (both qualification and run off performances will be considered).

(b) The highest number of qualifications from the counting rounds will be counted.

(c) The highest number of record bonus points will be counted

(d) The competitor who reached his final championship total first.

(e) Should none of the above be effective the Championship Organisers will specify the method to reach a solution.

CHAMPIONSHIP RECORDS

1.6.6 Bonus points will be added to those shown in Regulation **1.6.2** (and subject to the same limitations imposed by Regulation **1.6.4**).

The organisers will cause to be prepared and published Championship Records for each venue. These will be based upon times recorded in both Timed and Run-Off performances in previous British Sprint Championship events using the layout and format in use at each venue. Championship Records will be set for the various Classes detailed in Regulation **1.6.18**. Such records will be revised during the season should the Championship visit the same course more than once. Any times set in the timed run or runs upon which points are based which break the existing Championship Record shall attract an additional point to those awarded by virtue of the competitor's finishing position. Any such additional point is not subject to the same limitations contained in **1.6.4** and will be displayed separately. In the event of a new venue (where no records exist) Championship Records will be set after the completion of the first Top 12 Run Off. Where initial records, for a venue, are set in wet conditions then at subsequent events (until records are reset) an average shall be taken of the percentage by which the fastest timed runs in each category are improved and all records shall be adjusted by that average.

1.6.7 An additional point is available for each class at each round for any new records created, so the competitor who creates a new record during the Timed Runs and Top 12 Runs will get one point added to their score. Only one competitor in each class can get the point, regardless of how many times the record is broken at that event, only the competitor holding the new record at the end of the round can gain the point.

1.6.8 No time, at any venue, shall be taken as the Championship Record for any Category which exceeds the Category Average Differential by greater than 10% (to allow the Championship Organisers to substitute a time, where no record exists and avoid "unrepresentative" times).

1.6.10 The Differential for each venue, for each Category, and the Category Average Differential shall be published in accordance with Regulation **1.6.7** (and the Category Average Differential will exclude any substituted times).

1.6.11 Each differential shall be calculated: $\text{Category Time} \times \text{Unlimited Racing Car Category Time} \times 100$ (this percentage shall be corrected to one decimal place).

FOUNDATION CUP

1.6.12 It will be open to any competitor who has registered in the British Sprint Championship who has not, before, finished in the Top 12 (Top 10 to 2003) in the final classification of that Championship (subject to 1.6.13). No separate fee will be payable.

1.6.23 These will be presented for the competitor scoring the highest aggregate total score for all events in England (Saxon Trophy) and events in Wales, Scotland and Northern Ireland (Celtic Trophy) which are shown in the calendar in Regulation 1.5.1 above.

1.6.24 The "highest aggregate score" will use the same basis as in 1.6.25 (including modifications 1.6.26 & 1.6.27) to enable competitors from all categories an equal opportunity to achieve success.

1.6.25 Entrants will be scored on the basis of their Timed Runs 1 & 3. Should there be no Timed Run 3 this will be superseded by the second timed run which takes place. The score will be the percentage that the Championship Record (see **1.6.7**) for the category of car (see 1.6.18) in which the contender is entered is, as a proportion their best time at each event. Scores will be calculated to two places of decimals.

1.6.26 Should there be no records for that venue the basis times for scoring will be the fastest time set by any competitor at that event in that category, in the first two timed runs or Top 12 Run Off.

1.6.27 Should the event be wet, then the fastest timed runs, in each category, will be compared to their respective Championship Records and an average of the three closest categories to their records will be used as a factor by which all Championship Records at that venue at that event will be uplifted for the purposes of scoring within the context of these paragraphs. In the event of any "substituted" time (**1.6.8**) the maximum score shall be 105.

CHALLENGE CUP

1.6.28 Entrants will be asked to nominate, when registering, 12 qualifying events from the calendar at 1.5.1 which will become their scoring events (NB each date in 1.5.1 represents 2 events). Substitute events may be nominated where withdrawal takes place

before signing on; also a substitute event may be nominated where a breakdown during an event prevents the completion of a timed run once per annum

1.6.29 Entrants will be scored on the basis of the best two of their timed runs. The score will be the percentage that the Championship Record (see **1.6.6**) for the category of car (see **1.6.18**) in which the contender is entered, as a proportion of each of their two best times, at each event. Scores will be calculated to two places of decimals.

1.6.30 Should there be no records for that venue the basis times for scoring will be the fastest time set by any competitor at that event in that category, in the first two timed runs or Top 12 Run Off.

1.6.31 Should the event be wet, then the fastest timed runs, in each category, will be compared to their respective Championship Records and an average of the three closest categories to their records will be used as a factor by which all Championship Records at that venue at that event will be uplifted for the purposes of scoring within the context of these paragraphs. In the event of any "substituted" time (**1.6.8**) the maximum score shall be 105.

1.6.32 Challenge Cup entrants are entitled to take part in Run Offs (see 24), in the 12 events they have nominated (1.6.28), should their best time be inside the fastest 12 times of British Sprint Championship contenders. They will take part as the 13th (or later) runner within the Run Off. This option is not available to the entrants in the 2000, 1600 forced induction car engine or unlimited racing cars. No points can be earned in the British Sprint Championship until such time as "full status" is achieved.

They may not take part in Foundation Cup (see 1.6.12 – 1.6.18), Britannia (1.6.22), Celtic, Saxon (1.6.23 – 1.6.27) or St John Trophy. Entrants are entitled, upon payment of a further £60, to upgrade their registration to "full" status (see 8.1) and take part in all six competitions (subject to 1.4.3) registration to "full status" being consecutive to Challenge Cup status. They may not take part in Challenge Cup and Top12 Run Off (points scoring)/Foundation Cup/Britannia/Saxon/ Celtic Awards at concurrent events, unless they register for both the British Sprint Championship and Challenge Cup concurrently, paying the registration fees for both shown in Regulation 1.4.2 (registration for the latter remains subject to the next sentence. Previous winners of Foundation Cup/Britannia/Saxon/Celtic/Category Awards in the last 3 years may not take part in the Challenge Cup neither will any previous holder of a permanent number (1.5.4).

1.6.33 In the event of a tie in total scores between two or more competitors entrants best scores will be used as a basis for deciding any ties.
